

INSTYTUT NISKICH TEMPERATUR I BADAŃ STRUKTURALNYCH
IM. WŁODZIMIERZA TRZEBIATOWSKIEGO POLSKIEJ AKADEMII NAUK

Aleksandra Kowal

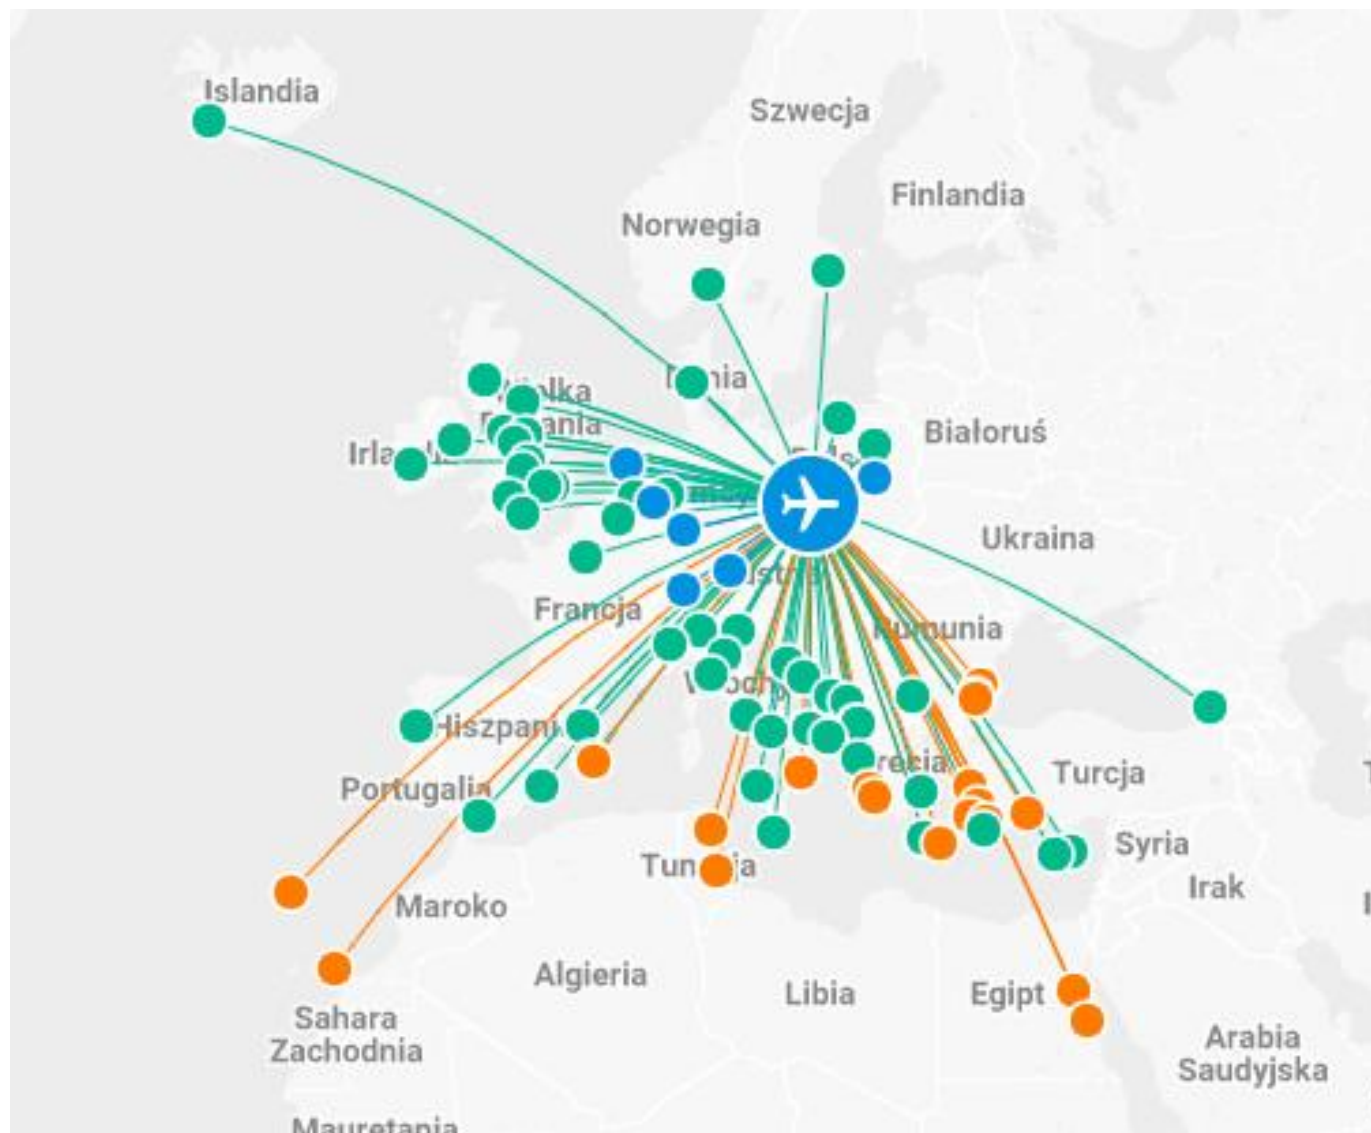

Invitation to the next TC-T meeting

INTiBS – Instytut Niskich Temperatur i Badań Strukturalnych im. Wł. Trzebiatowskiego PAN

Wł Trzebiatowski Institute of Low Temperature and Structural
Research
of the Polish Academy of Sciences in Wrocław

**It is one of the main institutes of physics science in
Poland formed in Wrocław in 1966 .**

Research interests of the Institute include wide research of **physicochemical structure of solid state** and connection to physical, chemical and spectroscopic properties, especially **in low temperatures**. Institute's speciality are investigations of magnetic systems, superconductors, physics of phase transitions and molecular spectroscopy.
